As sung by the Eddy Family. On a lone barren isle where the wild wavin Assails the stern rock and the loud tempest

The hero lies still, while the dew droppin Like fond weeping mourners, leaned the grave. The lightning may flash, and the loud thun

He heeds not, he hears not, he's free from all pain: He sleeps his last sleep, he has fought hi last battle, No sound can awake him to glory again.

Oh shade of the mighty, where now are the That rushed but to conquer when thou led's them on, Alas! they have perished in far distant re-

And all save the fame of their trinmph The trumpet may sound and the loud can

They heed not, they hear not, they're fre from all pain, They sleep their last sleep, they have fought their last battle.

No sound can awake them to glory again.

Yet spirit immortal, the tomb cannot bind For like thine own eagle that soared to the

Thou springest from boudage, and leavest behind the, A name, which before thee no mortal had

Though nations may combat and wars thunder rattle. No more on the steed wilt thou sweep o'er

the plain : Thou sleep st thy last sleep, thou hast fought thy last battle,
No sound shall awake thee to glory again

Farmers Department.

NECESSITY OF MANURING.

It is obvious that the manuring of a farm should be limited by the ability of the owner. On a plentiful supply of manure, is depending the fertility of his soils, the athount of his crops, and consequently the extent to which his labor is rewarded.— There is no expenditure on a farm, so safe as that for manure; and the labor required to increase it is never labor lost; at least if directed by an ordinary share of agricultural knowledge and skill. Every source of supply should be made available; nothing capable of fertilizing should be lost. The farmer who takes from his soil more than he returns to it, is surely impoverishing it; and if he escapes such a calamity himself, he leaves to his successors a worn out farm. If he returns as much he receives, his farm will retain its original fertility only; but the true farmer will scarcely be content with this. To increase its fertility and the amount and quality of the crops taken from the soil, should be the aim of the husbandman. This done, his labor is lessened, his profits are greater, his farm is worth more; nor must the pleasure arising from beautiful fields, golden harvests, fine animals accumulating prosperity, be omitted in making our estimate of successful culture .-Manure may be a homely subject, but on its preparation and use everything is depending. Without it, the deep green of the first narrow passages, whence ar se martin our pastures, the golden yellow of our corn | secretions and stoppages of urine. You will find fields, and the fine beef and white loaf of our tables could not exist. To the farmer, manufacture the distribution of the most powerful duratics of no use, as they only increase the quantity of urine and do not pusify and strengthen the parts. By purifying the blood must be the first thing, and it must be the last thing: with it, he can do every thing; without it, nothing.

Wit and Wumor.

OLD BUT GOOD .- Dan Marble tells the following story about a Yankee who lost his vellow dog. Approaching a wood-chopper by the way-side, the Yankee accosted him : "Mister, have you seen a valler dog agoin'

along here, about a year and a half, or two

years old ?" "Yes," replied the chopper, supposing the Yankee was quizzing him, "yes, I saw a yaller dog going here, about a year, a year and a half, or two years old, about an hour, an hour and a half, or two hours ago; and you'll find him about a mile, a mile and a half, or two miles ahead, with a tail about an inch.

and a half, or two inches long." "Hold on! that'll do, stranger? I calkilate you are into me about a feet, a feet and a feet and a half, or two feet!"

SEVERE SARCASM .- A French field-Marshal who had obtained that rank by court favor, and not by valor, going one evening to the opera, forcibly took possession of the box of a respectable Abbe, who for this outrage brought a suit in a court of honor, establish ed for such cases under the old government The Abbe thus addressed the court: "I come not here to complain of Admiral Sufrein, who took so many ships in the East Indies, I come not to complain of Count de Grasse, who fought so nobly in the West: I come not to complain of the Duke de Richelieu, who took Minorca, but I come to complain of the Marshal B , who took my box at the opera and never took anything else." The court paid him the high compliment of refusing his suit, declaring that he had himself inflicted sufficient punishment.

A CURE FOR SLANDER .- Rowland Hill, on being told that, it was expected he should take notice of some unhandsome things which had been publicly said of him, said that he did not consider it necessary to enter into any vindication of himself; and, he added, "I have now lived a great many years in the world, and have passed through much of evil

BOUND TO COME OFF .- Somewhere in the West, a sable knight of the lather and brush was performing the operation of shaving a hoosier with a very dull razor. "Stop! said the hoosier, "that wont do." "What's de matta, boss !" "That razor pulls." "Wellno matta for dat, sah. If de handle ob de razor don't break, de beard's bound to cum

> ever judge from manners," said Lord for I once had my pocket picked by t gentleman I ever met with."

DR. SWEETSER'S A EE EO A EE A GI HIS Medicine is warranted, on oath, not to contain a particle of Calomel, Corrosive Sublimate, Arsenic, Chloride of Gold, or any delete-

The principle upon which this Medicine sets, is The principle upon which his medicine sets, is by assisting and harmonising with nature; it drives out all foul acrimonious humors from the blood and body, and by assimilating with and strengthening the gastric juice of the stomach, it assists digestion; in short there is not a vein, artery, muscle or nerve in the human body, that is not strengthened by the PANACEA, and it also not strengthened by the PANACEA, and it also nowescess the remarkable property of removing possesses the remarkable property of removing moreury from the hones and joints.

FOR ERUPTIONS OF THE SKIN, Scurvy, Scorbuit Affections, Tumors, Scrofula or Kings' Evi, White Swellings, Erysipelas, Ulcers, Cancers, Running Sores, Scabs and Biles, time and a determined perseverance in D. SWEET SER'S PANACEA, will effect a cure.

FOR IN DIGESTION.

Rejection of food, Nausea, Vomitings, Nervous af tections, Billious complaints, Head selle, Paleness, or Female Irregularities, Dr. SWEETSER'S PANACEA will soon effect a cure; but if obstinate, or attended with griping, flying pains, the dose should be increased, and the cure will soon be of fected. Let not the patients frighten themselves with the idea that they are too week to take much nedicine; but bear in mind that this middly operating med cine put not weakness into the fram nest certainly draws weakness out, leaves strength in its place, and by giving composed sleep at night, and an appetite to reliab any food, re-animates the whole frame with vigorous action, clearing the nind and improving the sight.

SCROFULA AND GLANDULAR AFFEC-

TIONS.
Scrofuls is said to be heriditary, the infant receiving from its parents the seeds of this disease, which increases with its years, if neglected and not submitted to frequent purification with Dr. SWEETSER'S PANACEA. The glands are plared in the corners of the body, and out of the way of direct communication; their real use is a subject on which much difference of opinion prevails; i suffices us to know that when in a diseased state, they are capable of being purified and cleansed by long course of Dr. SWEETSER'S PANA CEA, which restores them to sound and proper action. Scrotul us persons can never pay too much attention to their blood, its purification shou'd be heir first thought, for after a long course of persecrance, they will ever cure hereditary disease.

In cases of JAUNDICE, ASTHMA, LIVER COMPLAINTS, TIC DOLOREUX RHEU MATISM OR RHEUMATIC GOUT, Dr SWEETSER'S PANACEA cannot be too high ly extelled; it reaches out the very root of the disease, and by removing it from the Blood makes

a cure certain and permanent.

For diseases of the Bladder and Kidneys, Strice tures, Gravel, Stone, Piles, Fistula, Urinary Obstructions and Extreme Costineness Dr. SWEET-SER'S PANCEA is the best remedy ever tred; it removes all those acrimonious humo's from the Blood which give rise to the above diseases, and by keeping the blood in a pure condition, insures

For DROPSY, FALLING OF THE BOWELS, Impurities of the Blood, Mercurial Taint, Weak-ness of the Spine Flow of Blood to the Head Giddiness, Singing and Buzzing Noise in the Head and Ears, D. SWEETSER'S PANACEA will give certain relief; in all severe and chronic cases. the patients cannot be too often reminded that lar ger doses and perseverance will effect a cure.
In Chills and Fevers, Bilious Fevers, Affections of the Eyes and Ears, Spongy and Bleeling Gums Bronch t's and recent Coughs and Colds, Dr. SWEETSER'S PANACEA will be found perfectly sure and certain in its effects,

GRAVEL AND URINARY COMPLAINTS Those complaints are generally strended with the most fatal consequences, and are seldom or ne ver cured by the present mode of treatment; they usually accompany the patient to the grave, often suffering the most excruciating pain and torture, The cause of these complaints are the same as all others, the dioss of the blood becomes encrusted or with Dr. SWEETSER'S PANACEA, you re move the cause of the disease, consequently it can-not exist any longer, after sufficient perseverance in its use has deprived the blood and body of all acrimonious humors and incrustation.

DISEASES OF THE LUNGS-CONSUMPTION. This is a very prevident and fatal disease; it results mostly from neglected coughs, colds and bronchitis, also from improper treatment in many of er cases, such as measles, fevers, inflammations and small pox, and a best of other badly treated diseases. where the cause, instead of having been thoroughly removed from the blood and body, have only been

pulliated or removed from one part to break out in another. By divering your bodies of all foul bumore, through the medium of Dr. SWEETSER'S PANACEA, the cure is at once rendered certain and permanent. Recollect, while there is acrimnious humors floating in the circu'ation, it is as spt to settle on the lungs as any other part of the body; this is the reason that consumption is so prevalent.

BILES, SORES AND ULCERS,

Which you see on the exterior, come from and have their source in, the interior, and might just as well have settled on your lungs, liver, or any other part; which we know they frequently do, and produce most violent inflammatory disorders. The humor which occasions these sores is of a highly the pain it gives in forming, and afterwards its ra-pidly diceraing and correding the flesh and skin of the part where it has been a skin the part where it breaks out. This shows the necessity of frequently purifying the blood with Dr. SWEETSER'S PANACEA, and keeping such malignant humors in surjection. Should you have a bile or ulcer, be thankful that nature has taken trouble to warn you of the danger your life and bo dy is in, for it is a warning that the blood is foul. lad this same accimony selected the lungs in-tend of the surface of your body for its seat, consumpion of the lungs would have been the consequence Delay not then, to purify and cleanse with Dr. Sweetser's Panacea.

Sweetser's Panacea.

SPINE DISEASE

Spinal affections, chargement of the bones and joints, white swellings, hip joint complaint, ruptures, falling of the bowels and wom disease, will find a speedy ours in Dr. SWEET-ERS PANACEA. Where the disease has been of long standing, the time required to make a cure will be longer; but the patient may rest assured that a determined perseverance will effect it.

BRONCHITIS, ASTHMA AND DISEASE OF THE WINDPIPE.

These diseases proceed from the seriosity or corrupt humors of the blood, having a tiled itself on he throat and lungs, and stopped them up, so that they cannot draw sufficient air in for respiration Dr. SWEETSER'S PANACEA will give imme diate relief, and to make the cure perfect and cer tain, it should be continued some time after, to

RHEUMATISM, RHEUMATIC GOUT AND report and good report, and I have arrived at this conclusion, that no man can possibly do me any harm except myself."

MERCURIAL DISEASES

Find a safe and speedy cure in Dr. SWEET.

SER'S PANACEA. It cures by searching every blood vestel and artery, and driving out all impurates and foul humors accumulated therein, which is the cause of the umatism, gout and awellings of the joints. The de'eterous effects of calomel and other mineral poisons, readily yield to its sovereign influence; indeed, when its valuable properties be come fully known, the use of all mineral poison will be consigned to the tomb of all the Capulets, and only be thought of as a by-gone custom of the dar-ker ages. Dr. Sweutser's Panaces is also a sure cure for dyspepats, piles, contiveress, vertigo, head-sche, pain in the breast and liver complaint.

FEVER AND AGUE. Pever is always caused by a disorderly move-ment of the blood, struggling to fees itself of some-thing that encumbers it; in fact, every kind of fe-ver is nothing more than a struggle between the blood and corrupt humors, and as soon as the cor-

rupt bumors are expelled, you have no more fever.

When a patient with fever submits to be bled, or have his fidood poisoned with mercury, it weakens his frame to such a degree that if he survives the process, it always leaves him subject to distressing chills, when 9 times out of 10 he resorts to ague pills, powders, or tonic mixtures; this is going from had to worse, as these vegetable pills, powders, &c., are nothing but mercury and quinine in disgular, which may for a time drive the disease so far into the hadr as not to be perceptible, but very soon it which may for a time drive the disease so far into the body as not to be perceptible, but very soon it will break out again with fearful violence. To cure ague and fever, the cause of the disease must be removed out of the blood and body, which can be effectually done by using Dr. SWEETSER'S PANACEA, which purifies, cleaness and strengthens. It contains nothing that can possibly injure, and its use is always a exfeguerd against chills and fever

PILES. In ALL CARRS OF PILES, Dr. SWEETSER'S PANACEA will effect a very speedy cure. It re-moves from the blood, stomach and bowels, all those foul acrid burning humors, which are the cause of Piles and Costiveness, and by strengthen ing the digestive organs, improves every part of the

FLATULENCY AND WIND. These diseases are caused by the stornach and howels being choked up with viseld slimy matter, he air which enters them eannot e-cape until forced by some contraction of the somach to expel it; hence the cause of pain. A few doses of Dr. SWEETSER'S PANACEA will convince the sufferer that relief is attained.

GREAT MEDICINE FOR CHILDREN. Parents will find the PANACEA a valuable a bealthy condition, thereby assisting their g owth children or grown persons, after taking it, are not liable to be attacked with an epidemic as before, as it always leaves the blood in a pure condition, and the entire system in a strengthened state; it drives out all kinds of weakness from the body and leaves will find Dr. SWE CSER'S PANACEA a medi-

one purely adapted to their use. Most ladies during the period of pregnancy are afflicted with piles Sweetser's Panacea, by regulating the bowel will entirely obviate this, and its purifying proper-ties on the blood and fluids, incures to them heal-thy off-pring. No one who is a mother should be without it, and those who are nursing will find it of great benefit to the health of their infants. For barrenness and all diseases of the womb, i without a rival in the entire history and catalogue of medicines; by its extraordinary strengthening

power, it stimulates and strengthens the womb, weakness of which is the cause of failure to have offspring. NERVOUS DISEASES. Under this head may be classed Pulpitation of he Heart, Te Doloresux or Facesche, Neoralgia. Indigestion, Toothache, Melancholy, Hysteries, and n fact, every disease caused by the share, biting acrimonious humors irritating the nerves; the nerves receive the morbid impression from the stomach, or rather from the blood through the agency of the stomach and dige tive organs, and although other parts of the body are apparently the seat of the disease, still it is caused by the morbid imp ession conveyed from the blood by the nerves, to that part. A few doses of Dr. SWEETSER'S PA-

NACEA will soon assure the patient that he has

the cure in his possession.

ERYSIPELAS, on ST. ANTHONY'S FIRE. This is an inflammatory diso der, always at end ed with more or less pain. It proceeds from the foul, perimonious humors lodged in the blood and fluids, settling on the Lm's and face, causing extreme pain and fevers; all applications on the surface are worse than useless, as they only tend to throw the disease in some other part, and perhaps cause death. Bleeding is likewise improper. To cute the di-ease you mu-t get rid of the cause; on y manage to get the foul humors out of your blood and you will be well in a day. Dr. SWEET-SER'S PANACEA, a thorough purifier of the blood will a such out every impurity in the more remote parts of the body and expel it through the medium of the bowels. There is not a vein artery, muscle or organ of the entire framework of man, that Dr. Sweetser's Panacea does not im prove. To take it when you are well is to keep well; and when sick to become well.

DR. SWEETSER'S PANACEA, beingeon posed only of a vegetable matter or medical nerbs, and warranted, on oath, as containing not one particle of mercurial, mineral, or chimical substances, age, or the weakest frame, under any stage of human suffering; the most pleasant and benign in its operation that was ever off-red to the world; and the same time the most certain in searching out he root of any complaint, however deep, and of

Price \$1 per bottle, or six bottles for \$5. For sale, wholesale and retail, at the corner of CHARLES and PRATT Streets Baltimore, and GEORGE BRIGHT. Nov. 6 1847.-- iv

ITS WORKS PRAISE IT! Burns, Scalds, and all kinds of Inflamed

Sores Cured. It is standy, (and as if by Mogic) stops pains of the most desperate Burns and Scalds. For old Sores, Bru ses. Cuts, Sprains, &c., on man or beast, it i he best application that can be made. Thous ands have tried and thousands proise it. It is the most perfect master of pain ever discovered. All who use recommend it. Every family should be provided with it. None can tell how soon some of the family may need it.

O'serve each box of the genuire Ointment as the name of S. Tousky written on the outside

label.—To imitate this is forgery.

Bo tmen, Livery Men, Farmers, and all who use Horse-, will find this Ointment the very best thins they can use for Collar Galls, Scratches, Kicks, &c &c., on their animals. Surely every merciful man ble Tousey's Universal Clintment is all that is re

aired. Try it.
BITES OF INSECTS. For the sting or bite poisonous Insects, Tousey's Ointerent is unri PILES CURED! For the Piles, Tousey's U iversal Oroment is one of the best Remedies tha can be applied. All who have tried it for the Piles

OLD SORES CURED. For old obstinat Some, there is nothing equal to Tousey's Omt-ment. A person in Manius had, for a number of years, a some leg that baffled the skill of the doctors. l'ousey's Ointment was recommended by one he visiting physicians, (who knew its great virtues.) and two boxes produced more benefit then the pa tient had received from any and a I previous reme

dies. Let all try it.
BURNS AND SCALDS CURED. Thousand of cases of Bures and Scalds, in all parts of the country, have been cared by Tousey's Universal Cintment. Certificates enough could be had to fill the whole of this sheet.

VIOLENT BRUISES CURED. Testimoni-

als on testimonials, in favor of Tousey's Ointment for curing Bruises, have been offered the proprietors. Hundreds in Syracuse will certify to its great nerits in relieving the pain of the most severe Bruise Il persons should try it. SCALD HEAD CURED. Sores of cases of

scald Head have been cured by Tou ey's Ointment. Try it-it seldom fulls.

SALT RHEUM CURED. Of all the remedies ever discovered for this most disagrees le complaint Pousey's Universal Ointment is the most complete

CHAPPED HANDS CAN BE CURED,-Tousey's Universal Ointment will always cure the worst cases of Chapped Hands, Scores of persons Will state this.
SORE LIPS CURED. For the cure of So

Lips, there was never anything made equal to Tousey's Ointment. It is sure to cure them. Try it.

It is a scientific compound, warranted not to contain any preparation of Mercury. Price 25
cents per box. For further particulars concerning
this really valuable Ointment, the public are referred to Pamphlets, to be had gratis, of respeciable
Doggists and Merchants throughout the United
States.

DIR. LIE HOTE Vegetable Universal Pills, The only known Medicine that at the same time purges purifies and strengthens the system.

Lonnov. July 7, 1846. PR LE ROY'S Pills are a new medicine which has just appeared, and is fast taking the places of all others of the same class. These pills are composed of many ingredients, but the two principal ones are Sarsaparills and Wild Cherry, so united that they act together; the one, through its admixture with other sub-taces, pu rifying and purging, while the other is strengthering the system. Thus those pills are at the sam time tonic and opening; a desiderature long and eagerly sought for by medical men, but never beof two medicines. and do it much better than any two we know of; for they remove nothing from the system but the impurities; so that while they purge they strengthen; and hence they cause no itation, and are followed by no re-action. Le Roy's pills have a wonderful influence on the load; they not only purif. without weakening it. out they remove all to xious particles from the chyle before it is converted into fluid, and thus make impure blood an utter impossibility. As there is no debilitation, so there is no nauses or sickness attending the operations of this most excellent of me-dicines, which never strains or tortuces the diges-tive functions, but cau es them to work in a perfectly natural manner; and hence persons taking them do not become pale and emeciated, but the contrary; for while it is the property of the Sarsa paralla, united as it is with other ingradients. to remove all that is foreign and impure, it is equally the property of the Wild Cherry to retain all that is natural and sound; and hence a robust state of health is the certain result of their united operations. Price 25 cents per BOX.

SIX YEARS AGO

THE children began to cry for Sherman's Lo I zenges. The noise was not no loud at that ime, but it has kept increasing over si ce and n w has become so great that the mouths of the little ones can searce be stopped. Dr Stierman sympathises with the little suff ters, and very much to ere s that any of them should be disappointed owing the vast benefit which has been confer red upon the community by the introduction of his infallible

WORM LOZENGES, he has entered into arrangements for energing his Manufictory, by means of which is think- he will be able to supply the demaid. And the same painand care will be taken, that these colebrated Los zenges be made as they have always been, in order that those who depend upon them, may not be disappointed in their hopes. He knew when he commenced the monufacture of the Worm Lazenges, that ithy would supers de the use of everother vermifoge, as the Lozonge is very pleasure to the taste, speedy in its effects, as well a rectain, and the quantity required to effect a perfect cure, is very small. These properties in connexton with the f et that they are sold for 25 cents per bex, thuplicing them in the reach of the poorest man is he land, has not only coused them to take the place of every other vermifuge ever offered, but at

o rendered them popular to the community. COUGH LOZENGES continue to cure Coughs, G lds, Consumption, Asthma, shortness and difficulty of Breathing, and other disca es of the Longs, with the same for its they did on their first introduction, and the propil have now become persualed by actual explicates that on the accession of a light cold, they have only to step to either the De's office, or one of the Agents, and obtain a box of his Cough L. zenges which are very convenient to carry in the pocket and to take a few through the day. By pursuing this course a cure is often effected in 24 hours, and the patient about his busin 'es. So great is the celebrity of the Log-nges, that thousands of persons who have used them, and become acquisinted with

their effects, will never be w thout them. POOR MAN'S PLASTER has cured more esses of Rheumatism, Pair in the Back, Sale and Chest, Lumbago and Weakness than any application that has ever been made. As the celebrity of the Plaster has increased, hundreds of unp incipled rascals have attempted to counterfeit it, and palm it off up in the community as the genuine. Deware of Deception. De Remember that the true and genuine Plaster is spread upon reddish paper made expressly for the purpose and in every case the signature of Dr. Sharman in the purpose and the state of the Plaster, and the wholester in the purpose are the signature of the purpose and the state of the Plaster, and the wholester is the purpose and the state of the Plaster. secured by Copy Right. None others are genuine. Therefore when you want a real good Sherman's Poor Man's Plaster, call at the office, 106 Nassau street, and you will not be disappointed.

Remember the number, 106 Na sau st., where

all Dr. Sherman's Lozenges are sold. His Agent sre Mrs. Hays, 139 Fullow street, Browklyn Hineson, William-burg; and Redding & Co. Boston, and JOHN YOUNG, Sunbury. M. A. McCAY, Northumberland. September 11th, 1847 .- 1v.

CHEAP NEW GOODS. US I received, a hands me but of Chilhs, I on simers, Calicies, Caps of all kinds, Gum Shoes, for men, wemen and children. Groceries, Queensware, and a variety of other articles, chea-per than ever, by HENRY MASSER. Sunbury, Nov. 27th, 1847.

BONAPARTE'S HARITS .- His peculiarity for The following list shows the current value of all bennsylvania Bank Notes. The most implicit reliance may be placed upon it, as it is every week are fully compared with and corrected from Bick-which time I used to read to him extracts which time I used to read to him extracts from the journals and pamphlets of the day, for he was anxious to hear and know all that was going on. While in the bath, he was continually turning on the water, to raise the temperature; so that I was sometimes enveloped in such a dense vapor that I could not see to read, and was obliged to open the door. Bomparte was exceedingly temperate, and averse to all excess. His flatterers probably under the idea that sleep is incompatible with greatness, have evinced an equal disregard for truth in speaking of his night-watching. Bonaparte made others watch, but he himself slept and slept well. His orders were, that I should call him every morning at seven. I was, therefore, the first to enter his chamber; but very frequently, when I awoke him, he would turn himself and say, "Alt! par Bourrienne, let me sleep a little longer." When there was no very pressing business, I did not disturb him again till eight o'clock .par He in general slept seven hours out of twenty-four, besides taking a short nap in the afternoon.

Among the private instructions which Bona. parte gave me, one was very curious :- "During the night," said he, "enter my chamber as seldom as possible. Do not awake me when you have any good news to communicate, with that there is no hurry; but when you bring me bad news, rouse me instantly, for there is not a moment to be lost." This was a wise regulation, and Bonaparte found his advantage in it .- Bourrienne's Memoirs of Napoleon.

ANECDOTE OF JOHN QUINCY ADAMS .- He always dared to do right, or what he thought to be right. When minister at the Netherlands, and comparatively a youth, he was invited to join the several ambassadors of different nations at that Court, in a gathering for social enjoyment, in which cheerful conversation, and gaming for amusement, we believe, bore a part. Once they adjourned to a Subbath evening.-The time came, and the ambassadors collected; but the American | minister was missing. It occasioned inquiry and disappointment; but presuming some special or invincible obstacle prevented his attendance, they said little of the circumstance, and adjourned again to Sabbath evening. But the American Ambassador did not attend. The next meeting was on a week. day evening, and the American was in his' place. They were glad to see him, and sigfailed nified their disappointment at his previous absences. Instead of making an apology, or assigning a fictitious reason, he frankly stated to them, that his principles would not allow no sale him thus to employ any part of the Sabbath. closed He was born in a country settled by Puritans. of Paritan parents, who regard the Sabbath as a divine ordinance. He had witnessed the good influence of its religious observance in the greater intelligence, the pure morals, the energy, enterprise, and orderly habits of his countrymen. As a friend of his country, therefore, he could not pervert the day, or failed use it for other purposes than those to which no sale he had been taught to devote it, and seen it New Hope closed devoted-in whatever part of the world he closed might be, or by whitever different customs

surrounded! Now to those who know the "sneering" character of most Sabbath-breakers and think of the age, high rank, and splendour of these men in connection with the youth of Adams, it would be difficult to name an instance of moral courage superiour to this. And it completely overawed his distinguished companions, and by instant and general consent they met no more on Sabbath evenings.

This anecdote we have not derived from any written reminiscenes of Mr. Adams. We received it from an American, some years failed ago, who has few superiors as to his know-| ledge of both the written and traditional hisfailed tory of his country, and indeed of the world failed and of the characters who have figured in it. Christian Mirror

ANECDOTE OF LORD ELDON AND SIR GEO. Rose.-Many were the squibs in prose and verse of which the Fabius of Chancellors was the subject. To one by Sir George Rose a happy refort was made by Lord Eldon.

My most valued and witty friend, Sir George Rose, when at the bar, having the note-book of the regular reporter of Lord Eldon's decisions put into his hand, with a request that that he would take a note for him of any decision which should be given entered in it the following lines, as a full record of all that was material which had occurred during the day:

Mr. Leach Made a speech-Angry, neat, but wrong; Mr. Hart, On the other part, Was heavy, dull and long: Mr Parker

Made the case darker. Which was dark enough without; Mr. Cooke Cited his book,

And the Chancellor said-I pount. This jet d'esprit, flying about Westminister Hall, reached the Chancellor, who was very much amused with it, notwithstanding the allusion to his doubting propensity. Soon after, Mr. Rose having to argue before him a very untenable proposition, he gave his opinion very gravely, and with infinite grace and felicity, thus concluded: "For these reasons the judgement must be against your clients; and here Mr. Rose, the Chancellor does not

PERFECT BLISS.—Major Bliss is called in the army, "Perfect Bliss," a nick-name to which he has shown himself justly entitled. At the celebration of the anniversary of the battle of Buena Vista, by our army at Monterey, on the 22d of February, the fol-

lowing significant tonst was drunk: "Lieut. Coutts of the 1st Dragoons, gave the health of Miss Betty Taylor, the daughter of the distinguished General, old Zack—Amendment by Adjutant Helm: May she enjoy "Perfect Bliss" during the balance of her days
